Education

BMS Institute of Technology and Management

2022 – Present

Bachelor of Engineering in Artificial Intelligence and Machine Learning (CGPA: 9.22)

Bengaluru, KA

Technical Skills

Languages & Tools: Python, MySQL, Java, Git, RESTful APIs, Azure AI Foundry, HTML, CSS, JavaScript, React,

AI/ML Frameworks: PyTorch, TensorFlow, Hugging Face Transformers, Scikit-learn, NumPy, Pandas

Generative AI & NLP: LLMs (GPT, BERT), Prompt Engineering, Semantic Kernel, Vector Embeddings

Experience

Junior Developer Intern - Endava | *MySQL, HTML, CSS, JavaScript, RESTful APIs*

Jan 2026 – Present

- Designed relational database schemas and optimized SQL procedures supporting scalable messaging workflows.
- Integrated frontend components with backend REST APIs to enable reliable data exchange across application modules.
- Collaborated in Agile development teams using Git, participating in debugging, testing, and code reviews.

Projects

AI-Powered Resume Matcher | *Python, Semantic Kernel, Azure AI Foundry, NLP, SBERT*

June 2025

- Built an AI-powered resume ranking platform using SBERT embeddings, semantic search, and vector similarity scoring to match candidates against job requirements
- Designed an end-to-end data pipeline for PDF ingestion, text extraction, embedding generation, and retrieval-based evaluation.
- Implemented scalable candidate ranking workflows capable of processing multiple resumes against job descriptions with real-time scoring.

Ambulance Distribution System | *Python, Streamlit, ML Algorithms (KNN, K-Means)*

Feb 2025

- Processed and analyzed 700k+ traffic records to optimize emergency resource allocation across 45+ distribution hubs.
- Developed clustering and nearest-neighbor based optimization models to improve dispatch planning and reduce response latency.
- Built data validation, monitoring, and retraining workflows to ensure consistent model performance under changing traffic conditions.

Leadership & Extracurricular

Chief Coordinator - CODE RED 3.0 National-Level 24-Hour Hackathon

Dec 2025

- Led a 60-member cross-functional team to organize a 24-hour National Level Hackathon with 3000+ registrations, 1000+ teams, and 280+ participants
- Managed end-to-end operations including shortlisting, logistics, scheduling, and real-time issue resolution while maintaining seamless coordination and event continuity through structured planning and collaborative problem-solving.

President - Entrepreneurship Cell

2023 – Present

- Led a cross-functional team of 35 to execute 10+ large-scale events, engaging 500+ students, and built a culture of innovation, integrity, and professional growth.

Junior Under Officer - National Cadet Corps (NCC)

2022 – 2025

- Demonstrated discipline and leadership by leading and coordinating parades; recognized by senior officials for performance in debates and leadership activities, and selected for the Best Cadet Competition

Poetry Publication

2023

- Published an original poem titled "White Orchids" in the poetry collection "Floating" by Writer's Pocket.

Certifications & Achievements

Certifications:

- Software Engineering Fundamentals – Infosys Springboard (Feb 2025)
- Prompt Engineering – Infosys Springboard (Oct 2024)
- Data Analysis – 365 Data Science (Nov 2024)
- Generative AI – Google Skills (Ongoing)

Achievements:

- Overall Champion** Awarded at Reva University for best performance in maths,data structures,debate and cubing
- NeuroNova Hackathon:** 2nd Place in AR/VR track for *Krishidrishti*, an AR-enabled farming system.
- Enfinity Startup Festival:** 3rd Place in Business Triathlon at NMIT for developing an recommendation engine.
